Administration

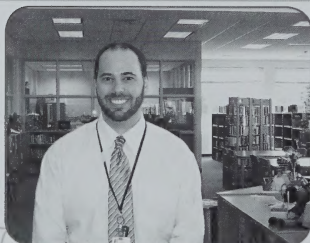

Timothy Neville- Principal

One of the joys of my job is to watch your children grow over their two year journey through the middle school. From shy, awkward, sometimes immature adolescents on entering JFK, they emerge two years later more confident, mature and generally grown up - ready to move on to greater challenges. Though not without bumps along the way and even a few tears, it never ceases to amaze me how they successfully and cheerfully move through one of the most difficult age spans in a person's life. With high school as the next challenge, I think that with their parents by their side, the class of 2012 is ready to successfully move on. I wish you all the best in your next four years.

John Coleman- White House, Housemaster

Congratulations to the Class of 2012! I hope your high school years are happy and successful. Here are two "keys" for success in school and beyond. First, always try your best. No one can excel at everything, but everyone can put forth effort. It's to your advantage to be known as someone who always tries hard. Strong effort will be noticed, appreciated, and rewarded. Second, make it a priority to work well with others. No matter what other skills you develop, the ability to work well with people will be crucial for success. Think of "TEAM" – Together Everyone Achieves More. Remember, if you work hard and work well with others, you will be on the road to success. Good Luck!

Andrew Longey- Blue House, Housemaster

It is important to keep in mind that hard work will always have a positive impact in your life. A strong work ethic will overcome many deficiencies students may have. No matter what struggles are in your life working hard can overcome those challenges. In addition to hard work, it is critical to have a positive attitude. Life is too short not to focus on the positive things in life. Anyone can go through life complaining about the rotten things, but a truly positive person can find something special in all situations. I wish the 8th grade class the best of luck in the future.

Sarah Collins- Red House, Housemaster

Congrats to the JFK Class of 2012! Use the next four years to discover who you are and who you want to become. High school can be a challenging place!!! Use this time to try something new, something unusual, something you wouldn't normally do (Art class? Teen leadership? Geometry? Chemistry? Tech ed?). Push yourself a bit – take that honors class, or AP class – make that brain work!! Surround yourself with friends who will share in your successes, who won't bring you down. Join a club, a sport, an activity that is a passion of yours – be it chess, or soccer, or band, or painting. Enjoy high school and I wish you the best!
